***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/4/2003 has been entered.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Line 2 “ the inner race. and being” confuses the scope of the claim as the “.” ends the claimed limitations of the claim.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-12, 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Bellas et al (3308845).

Bellas et al shows a portable facility having an enclosure that is portable in the sense that it can be moved by a transport vehicle, means within the enclosure (col 1 lines 49-55), and more means within the enclosure, the means for cleaning (10) being located outside of the enclosure, the enclosure having at least one end through which access to the interior of the enclosure being obtained, a deck (7) at said one end of the enclosure, the means for cleaning being on the deck, the enclosure containing stations (figure 5) at which means are located (67, 68, 39, 38, 35 figure 5, col 7 lines 20-34), the enclosure having side walls and the stations being located along the side walls, a center aisle separates the stations along the side walls, ends through which access to the interior of the enclosure is obtained, a roof (52, 14) which extends between the side walls and over the interior of the enclosure, doors attached to the side walls for closing the ends of the enclosure, a washer located containing a solution, equipment within the enclosure, .

Bellas et al shows all the claimed structures. Bellas' s structures inherently can function as claimed.

***Allowable Subject Matter***

3. Claims 20-24,26-29 are allowed.
4. Claim 25 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter:  
prior art does not show a portable facility having spare inner and outer races and rolling elements

Art Unit: 3637

located within the enclosure to replace a damaged race or rolling element in combination with other claimed limitations.

*Response to Arguments*

6. Applicant's arguments with respect to claims 1-12, 19 have been considered but are moot in view of the new ground(s) of rejection.

*Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art shows different mobile facilities.
